

1. What is Visiwise?

Visiwise is a shipment-visibility platform that helps companies track containers in real time, centralize communication, and automate key logistics workflows. We serve over 150 global companies and are scaling toward 400.

Our goal is to give logistics teams a single, simple place to see what's happening across their supply chain and take action immediately. You can [check our website here](#).

2. Why does Visiwise exist?

Container owners need fast, reliable, automated visibility to avoid delays, manage exceptions, and cut costs. Real-time tracking lets them make better decisions, prevent problems early, and keep cargo moving efficiently.

3. Mission and Vision

Vision: Global shipping should feel as simple as local delivery.

Mission: Combine smart technology with logistics expertise to give every customer a personalized, efficient, and reliable experience. We aim to simplify global trade and improve people's lives, powered by a committed and talented team.

4. What we offer
